1. The Borrower, Bosnia and Herzegovina has received financing from the International Bank for Reconstruction and Development toward the cost of the Sava and Drina Rivers Corridors Integrated Development Program Using the Multiphase Programmatic Approach (SDIP). For the purpose of financing of the SDIP, part of Phase 1 of the Program, part of the loan in amount of EUR 25 million has been granted to the Brčko District to finance improvement of flood protection and environmental management within nominated projects - part refers to Brčko District of B&H, and intends to apply part of the proceeds toward payments under the contract for Works for Reclamation, Remediation and Closure of the Landfill in Brčko District.
2. The Development – Guarantee Fund of Brčko District on behalf of the Government of Brčko District now invites sealed Bids from eligible Bidders for the Works for Reclamation, Remediation and Closure of the Landfill in Brčko District, to be executed in compliance with the national legislation and the Detailed Design prepared by the Employer.
3. The Brčko landfill has been active for more than 50 years and it is located on a land that is not formally intended for waste disposal, respectively the location is illegally used for such purposes. The landfill covers an area of approximately 11.5 hectares and is located 2 kilometers from the city center, 300 meters from the nearest residential area and about 50 meters from the Sava River. The landfill is accessed via a 250 m long macadam access road, from the main road M 14.1 between the center of the City of Brčko and the City of Bijeljina (distance between Brčko and Bijeljina is 40 km). On the opposite side of the main road, about 300 meters from the landfill, Ilička settlement is located, and it is the settlement closest to the landfill. Detail Design for Works for Reclamation, Remediation and Closure of the Landfill in Brčko District is prepared and approved by the relevant authorities and in compliance with it, the Works shall include:
  - Remediation (closure) of the existing landfill in a manner that isolates all existing waste from the surrounding environment;

- Construction and establishment of a peripheral drainage system for leachate collection around the landfill;
- Construction of a watertight reinforced concrete basin for leachate collection;
- Construction and installation of leachate treatment facilities;
- Construction of a surface water (perimeter) drainage system;
- Channeling of the unnamed stream flowing alongside the landfill body to the railway embankment;
- Construction of internal operational/technological roads;
- Installation of a landfill gas collection system with bio filters;
- Construction of a hydrant network;
- Closure of the entire landfill with impermeable sealing layers;
- Land reclamation and establishment of landscaped areas and walkways;
- Implementation of appropriate monitoring.

Duration of works execution is 18 months. Defect Liability Period is 12 months.
